design INTERVENTION

VISITORS RECEIVED SOLID RENO ADVICE IN OUR COTTAGE-THEMED DESIGN INTERVENTION BOOTH

The *RENO & DECOR* Design Intervention booth at this year's National Home Show was designed by the very talented Rebecca Hay. "Inspired by lakeside living, the booth was a unique "cottagey" space with shiplap walls, comfortable and classy furnishings and great colourful decor items like handcrafted cottage-themed pillows," says Hay. The summer's night sky mural and charming

check bedroom walls added unique touches, typical of a luxe Muskoka retreat. "I thoroughly enjoyed designing the booth and want to give my thanks to all the wonderful people who came in to enjoy our little cottage to talk design!"

And we thank Rebecca for the beautiful nautical-inspired design of the booth, along with the wonderful design experts who dedicated their time and talent to the Design Intervention booth.
